

I am shocked that Sinclair Media is able to force it's subsidiaries to force its subsidiary stations to air political propaganda. I thought that publically licensed broadcasters had to give equal time to both sides. I am disturbed by media consolidation, in radio, television and newspapers; and this event highlights the dangers of this trend. Since you are the watchdog agency entrusted with protecting the interests of the public I hope you will give these issues thoughtful consideration when considering whether to issue or renew licenses.

Thank you.
